(54) ACRYLIC GEL MATERIAL AND ACRYLIC GEL PREPARATION

(57)Abstract:

PURPOSE: To provide an acrylic gel preparation containing an acrylic gel based material and a chemical which has a soft touch of adhesion to a skin surface and further can maintain a coagulating force sufficiently so that stress onto the skin surface can be eased and dispersed in peeling.

CONSTITUTION: A gelatinous self-adhesive layer which is produced by a crosslinking a mixture of an acrylic ester copolymer and an organic liquid component compatible therewith is formed on one side of a support. A gel component ratio in the self-adhesive layer is adjusted to a range of 50-80wt.%.

LEGAL STATUS

[Date of request for examination]

25.11.1997

[Date of sending the examiner's decision of rejection]

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]

[Date of final disposal for application]

[Patent number]

3014188

[Date of registration]

17.12.1999
